Bullmasters Practice Test 2009 National Match

T F 1. A BB gun or air gun is not a toy and must always be treated with the same respect and caution you would in handling any gun.

T F 2. When using a gun you can use any ammunition you have around.

T F 3. No BB gun may be cocked until the shooter is called to the firing line and the preparation period has begun. Shots may be fired during the preparation period.

T F 4. During a cease fire all BB guns must be grounded and the range officers will the BB gun to see that it is not cocked. If the BB gun is loaded or cocked at the cease fire command the shooter must inform the range officer.

T F 5. The targets used for this match are official NRA Targets AR-4/10 (12 bullseye). Eight, nine and ten rings are black.

T F 6. More rifles are used in hunting than shotguns.

T F 7. Move the rear sight in the opposite direction that you want the BB to go.

T F 8. To shoot well it is important to know which is your dominate or master eye.

T F 9. Shotguns use different size of ammunition or shells. Each size is called a caliber.

T F 10. A choke on a shotgun controls the pattern of the shot.

T F 11. When hunting it is okay to shoot at something even though you don't know what is beyond the target.

T F 12. When hunting abreast you have a shooting zone of 30 degrees.

T F 13. Shooting is a sport for the young and old.

T F 14. The most dangerous part of the gun is the trigger.

T F 15. It is okay to shoot at the surface of water.

T F 16. Shooting distance is 6 meters or 16 feet 4 $\frac{3}{4}$ inches.

T F 17. The course of fire will be 40 shots, four positions- 10 shots each position. Order of firing will be prone, sitting, kneeling, and standing.

T F 18. Weight can be added to the shot tube, stock and fore arm as long as the guns total weight does not exceed 6 pounds excluding the sling.

T F 19. Only round .177 (4.5mm) lead or steel BBs are permitted.

T F 20. Ordinary sports or casual clothing, suitable for prevailing weather, must be worn.
